FATE OF GIRL FLYER IN DOUBT

Oil Tanker Bound For Pt. Richmond On Rocks

Hours Bring No Word From Atlantic Plane Long Overdue On Hop

WEATHER CONDITIONS CONTINUE TO
HOLD FAIR; PLANE SEEN OVER
OCEAN BY BUT ONE SHIP

LAST MINUTE BULLETIN

(Universal Service Staff Correspondent)

BREST, France, Oct. 13.—At 7:00 o'clock this morning there was no one along the French coast who sighted the "American Girl," the New York to Paris monoplane. The light-house keeper reported heavy seas and a dense fog off coast.

NEW YORK, Oct. 13.—At 12 o'clock tonight the International Wireless company reported that no word had been received from any source that would shed light on the fate of the "American Girl," transatlantic plane. The report adds, however, that weather conditions on the Atlantic continue ideal for flying.

By CORINNE RICH

NEW YORK, Oct. 12.—Tonight, more than 18 hours of silence had obscured the story of the progress of the "American Girl," the monoplane attempting to reach Paris with Miss Ruth Elder and Capt. George Haldeman on board. She is due in the French capital at 7 o'clock tomorrow morning, New York time.

That was at 10:35 o'clock last night, five hours after Haldeman had lifted his plane from the ground at Roosevelt Field.

At that time the American Banker saw the big plane zoom out of the darkness, blink her lights in salute, and zoom on into the night. She then had over 3,000 miles to go.

These negative reports do not necessarily indicate disaster for the plane; but in aviation circles here fear was expressed today that the goal might never be reached.

FEAR EXPRESSED

Since the American Banker's report, the plane may have traveled nearly 2,000 miles over the bounding waves—or have fallen into the ocean in one of the storms that weather experts say are surely in the path.

Weather today, these experts say, was probably good. But as night came on, the plane should have passed into a story area that would test the courage of the most courageous pilot and the strength of the strongest aircraft.

Richmond Clubwomen Hear of Pacific Amity Conference

The Contra Costa Federation of Women's clubs met at the Mount Diablo country club near Danville yesterday. The four federations of Richmond, the Richmond club, Club Mendelssohn, So Side Improvement club, and the West Side Improvement club were represented at the meeting, which was presided over by Mrs. B. C. Wiester.

The San Ramon valley Welfare club was host to the visiting delegates. The morning session was occupied with reports of the club, presidents, and the chairmen of various committees. Mrs. Roy V. Davis, chairman of the public welfare committee, gave a report on the Sunshine camp preventorium, which is maintained near Marsh Creek in this county. The camp is supported partly

by the county and by the service clubs.

The Richmond club has sent a chest for clothes to the camp and Club Mendelssohn has contributed also. An outright donation of \$75 was made by the delegates yesterday.

Senator Will R. Sharkey spoke about the camp at the afternoon meeting of the assembly. He stated that there were 250 children who are slightly tubercular in this county, and that but 15 children are now receiving care at the camp. He also urged the purchase of Christmas seals.

Mrs. W. A. Hanlon of Martinez sang two numbers, "Call Me No More," by Cadman and "Spirit of the Evening Wind," by Stewart. Mrs. Virginia Brown of Club Mendelssohn gave three readings: "The Widdy O'Shane," "Carlotta," and "A Long Time Ago."

The speaker of the day, was H. C. Elkinton, a delegate from this district to the Pacific Institute of Relations, which met in Honolulu this summer. This institute was attended by 44 representatives from the United States, 15 from Japan and China, and more from other countries on the Pacific.

The purpose of the conference, the speaker said, was to allow the countries to become better acquainted with others and see different problems from another

QUIZ ORDERED IN SHIP DEATH

The remains of Antonio Perry, 30, in Benicia, killed in an explosion aboard the schooner Elton in the Racon straits off Point McNear early yesterday morning, was recovered yesterday afternoon.

A quiz into the circumstances of the explosion has been ordered. According to the owner of the craft, Lorentz Lorentsen of Petaluma, the explosion occurred at about 6 o'clock. Perry had gone aboard the schooner to start his engine when the explosion occurred and the ship burst into flames. Lorentsen declares that he despaired of saving the man and came ashore in his tug. There were two 350-gallon tanks of gasoline on the schooner which burned to the water edge.

The force of the explosion was felt in Richmond. Lorentsen explained the five-hour delay in reporting the explosion by saying that he first attempted to report to the steamship inspectors in San Francisco and not succeeding, later reported to the sheriff's office in San Rafael.

The check was presented to Mrs. Anna Keaton, president of the chapter, and will be officially turned into the fund at the next meeting. A letter of thanks will be sent to the club for the generous donation.

As a result of the Lions-Kiwanis ball games held recently, the Lions club presented the Richmond chapter of War Mothers with a check of \$95.75, the proceeds of the benefit game, which will go toward the fund for the memorial fountain to be erected by the War Mothers in Memorial park.

The check was presented to Mrs. Anna Keaton, president of the chapter, and will be officially turned into the fund at the next meeting. A letter of thanks will be sent to the club for the generous donation.

Service Clubs Aid Fountain Fund

The board of directors of the Richmond Red Cross chapter will decide upon ways and means to be used in launching a drive for membership some time in November, at a meeting Friday night.

Homer W. Patterson, president, announced yesterday.

A field worker from San Francisco will be present to aid in campaign plans. The session will be held in Patterson's office, in the American Trust company bank building.

The Social Service Bureau board of directors will meet this afternoon at 2 o'clock in the court room of Justice of the Peace John Roth in the Pillow building. Mrs. R. G. Lee, president, requests that all members be present.

Richmond Builders Will Meet Today

The Richmond Builders Exchange will hold its regular weekly luncheon today, discussion to center around several matters of importance. The committee in charge of the next social night to be held two weeks from today, October 27, will plan for the features of the evening.

SHIP POUNDED TO PIECES BY RAGING SURFS

Relief Vessels Rush To
Aid of Craft; Little
Hope Maintained

The tanker O'Donoghue, was pounded on the rocks at Point Arguelles, about 75 miles north of Santa Barbara, late tonight, pounding to pieces beneath the hammering of a heavy surf.

The vessel is owned by the California Petroleum company and was en route from San Diego to Point Richmond.

The tanker recently put into Los Angeles harbor from Yokohama.

Further details surrounding the wreck could not be learned. Ships are being sent to the aid of the disabled ship, though little hope was held out by officials that the assistance could be of avail before the vessel goes to pieces.

Armistice Day Fete Is Urged By Governor

Governor C. C. Young, in a letter which was mailed yesterday to each of the 200 American Legion posts in California, urged a patriotic observance of Armistice day on November 11. The letter, which was addressed to James A. Fisk, department adjutant, called particular attention to the observance of the day by school children.

In his letter, the governor wrote: "You will recall the assurances given by yourself and other officials of the Legion upon the occasion of my signing the bill which your organization sponsored, making Armistice Day a school holiday, that, if this new school holiday is given a fair trial and it is found that it does not work out to be a day of State-wide patriotic observance on the part of young and old alike, the Legion will take the lead in recommending that it be abolished, and that it be supplanted by a renewal of regular school sessions with patriotic exercises in the schools."

Accordingly, I welcome this occasion to suggest to the various units of the Legion their responsibility in their respective communities to see to it that the day is fittingly observed.

This is a two year trial to determine whether such a holiday will prove a new and valuable means towards educating the boys and girls of California into higher ideals of patriotism. I trust that every citizen of California will cooperate towards this end, lest Armistice Day degenerate into "just another holiday."

I earnestly hope that, under the guidance of the American Legion and other patriotic societies, Armistice Day may become a great national holiday devoted to patriotic observance, and of a nature to build up in the youth of our land high patriotic ideals.

A report will be made at the next meeting of the directors on Wednesday, October 26th.

Red Cross Drive Plans Will Be Made Friday

The board of directors of the Richmond Red Cross chapter will decide upon ways and means to be used in launching a drive for membership some time in November, at a meeting Friday night.

Homer W. Patterson, president, announced yesterday.

A field worker from San Francisco will be present to aid in campaign plans. The session will be held in Patterson's office, in the American Trust company bank building.

RICHMOND MAY HAVE AIRFIELD

Richmond is to have an air field and aviation instruction school.

The former air field on the State highway just beyond San Pablo bridge, recently purchased by a San Francisco syndicate headed by Fred Wood, has been leased by Robert Peebles, former aviator and lately associated with the Bank of Italy, for a term of three years.

Peebles appeared before the directors of the Richmond Chamber of Commerce and briefly outlined his plans for the establishment of a commercial aviation field and a school for the establishment of a commercial aviation field and a school of instruction for those desiring to learn to fly.

Peebles' suggestion for municipal aid will be thoroughly discussed by the finance and budget committees of the Richmond Chamber of Commerce, comprising Fred Caudle, chairman, Fred S. Newsom and Ira Vaughn.

A report will be made at the next meeting of the directors on Wednesday, October 26th.

Merchants Ready For Dollar Day

Richmond merchants are planning to make October 19, the greatest Dollar Day in the history of Richmond. Thirty-five of the Merchants have already signified their intention of cooperating in the event and are arranging special values for the day.

Special window display will feature the sales of the various stores and unusual offers that will appeal to the shoppers are being planned. Announcements of the sales will be made soon by the various merchants.

BUILDERS WAGE SCALE OF 1927 IS REAFFIRMED

25,000 Employees in Bay
District Affected By
Wage Board Rule

The present wage scale for the building trades crafts was fixed by the Impartial Wage Board last December after a series of hearings by the board under the chairmanship of Archbishop E. J. Hanna. The other members of the board were Judge Max C. Sloss and Selah Chamberlain. In announcing their adherence to the scale for 1928 the various organizations in a joint statement said: "The undersigned organizations hereby affirm that the wage scale in the building trades in the San Francisco Bay district as fixed by the Impartial Wage Board December 22, 1927, is hereby reaffirmed for the year 1928."

Approximately 25,000 mechanics in the Bay district are affected by the decision.

Crushed between two automobiles yesterday afternoon, John T. Conwell of 448 Second street, sustained two fractured ribs and bruises. The accident occurred near a garage on Garrard boulevard near a Cutting boulevard.

Conwell was putting air into a tire. An automobile, owned by P. Davis of a clam market on Cutting boulevard, was being towed by Frank Barber of the same address. The latter stopped to let Davis' car approach. The car got beyond control and swerved toward Conwell's machine.

The latter was caught between the two cars. He was taken to the Cottage hospital where he received treatment from Dr. H. L. Carpenter. It was disclosed that two ribs had been fractured. He was later removed to his home.

Reception Given Lindemanns By Wesley M. E.

Rev. and Mrs. C. G. Lindemann were honored guests at a reception held in the parlors of the Wesley Methodist church last night by the Aid societies of the church.

Mrs. Stribley led the community singing. Colleen colors were played by Miss Andel Mansfield, accompanied by Miss Buby Williams.

Each circle presented games. Mrs. A. Bloomquist gave a reading.

The General Aid society presented Mrs. Lindemann with a potted plant. Refreshments were served in the downstairs rooms of the church. The reception which followed the reappointment of Rev. Lindemann to the pastorate of Wesley church for another year, was largely attended. The program was well received.

Water Bonds Chairman Here Tells Of Trip To Project

An interesting report of a trip along the pipeline of the East Bay Municipal Utility District to Lancha Plana damsite on the upper Tuolumne was made by Director H. A. Johnson before the directors of the Richmond Chamber of Commerce meeting at the New Hotel Carquinez yesterday noon.

Johnson who is chairman of the Richmond committee in charge of the Water Bonds Campaign Committee, which is promoting the proposition to acquire or build a distribution system for the Tuolumne water project at a cost of not more than \$25,000,000, as specified in the call for the bond election, was a guest of the utility district directors and Chief Engineer and General Manager Arthur P. Davis last Saturday on the notable trip.

"The main San Joaquin river has offered the greatest difficulty in the pipe-line construction,"

and Johnson said, "The project is a unique engineering feat and one which is being watched by engineers all over the world."

The Lancha Plana dam will be 240 feet wide at its base and 365 feet high, according to Johnson, one of the greatest dams in the United States and capable of impounding 1,000,000 acre-feet and million gallons of water.

Johnson declared that if anyone should support the \$25,000,000 bond issue, there is an alternative, he declared, "We must either build or buy a distribution system if we would not be charged annually in order to insure perfect operation which needed."

First Aid Appliances For Fire Fighting Held Need

The extent of a fire is often dependent upon the steps taken to combat it at the outset and for this reason the value of first aid fire fighting appliances in all buildings, including dwellings, is unquestioned. Home owners who have had fire extinguishers, small hose streams and water pails available in time of fire have been more than repaid for their foresight, says Fire Chief W. P. Cooper.

Chemical extinguishers are usually of three types, soda acid, carbon tetrachloride and foam. The soda acid extinguisher contains a solution of bicarbonate of soda and a bottle of sulphuric acid which mixes with the former when the extinguisher is operated. This generates carbon dioxide gas under pressure and forces the solution out of the nozzle for a distance of about twenty feet. As the solution is likely to freeze at low temperatures, extinguishers of this type should be kept in warm places in winter. They are intended primarily for fighting ordinary small fires. They should be emptied

and recharged annually in order to insure perfect operation which needed.

Carbon tetrachloride extinguishers depend upon the blanketing effect of their content to extinguish fires. They are effective in fighting electrical fires for their solution does not conduct electricity. They may also be used advantageously in small oil or grease fires and are therefore well adapted to automobiles and motor boats.

The foam type of extinguisher contains two solutions which when mixed generate a light foam. This extinguishes the fire by excluding air which is necessary for combustion. Foam extinguishers are particularly adapted to oil fires.

One or more extinguishers, a pail of sand, water buckets and a garden hose attached to a faucet in the cellar or outside of the house will be helpful. All members of the household should be instructed in the proper use of this equipment that they may be prepared for emergencies.

In the good old days a man killed his wife and then excused himself to the judge by saying that he was drunk when he did it. In modern days a woman kills her husband and tells the jury she was "triangled" into it.

We don't know what President Coolidge is going to do when he gets out of office but our guess is that if he moves on a farm he will be able to make it pay, without much help from congress.

Some of these days some innocent diplomat is going to introduce a disarmament resolution into the League of Nations and actually mean it.

A number of distinguished British visitors when served with corn on the cob on a Pullman diner didn't know what it was and had to be instructed in the proper method of eating it. Just think of the misfortune of knowing nothing about corn on the cob.

A Maine grandma aged 101 and a New Hampshire grandpa aged 100 took an airplane ride the other day and enjoyed it. Some of these days they are going to carry this flaming youth stuff too far.

Two New Jersey policemen are accused of having stolen two roast chickens from a delicatessen window. It never pays to get too familiar with chickens.

Luxurious ocean liners travelling between New York and European parts have made a ten-percent reduction in rates. But they'll have to do better than that before they do much of a business.

Mayor Jimmy Walker says that he was much attracted by Mussolini and knowing something of the number of Italian votes in New York City, we judged that he would be.

South Carolina boosters assert that the state needs double its present population. Here is a good chance for the republicans to do some valuable colonization.

How To Earn Money!

I have a lot of pretty remnants mill ends, I would like to put them to some use, as I need to earn some money, during the summer I made porch cushions out of some of my remnants, but there is no demand for such articles now.

JENNIE.
There is quite a vogue now for the old-fashioned patchwork quilt. They may be pieced by hand or on the machine. The old-fashioned designs such as "Rising Sun", "Log Cabin", "Steps to the White House" are very popular and you should be able to utilize your remnants nicely in working up some of these patterns. The reverse side may be of sprigged calico or unbleached muslin. After you get started you might try out some of the fancy quilting designs, but in the beginning I would suggest the simple "shell" pattern.

My husband has opened up a brokerage office, but as he is just beginning he finds it hard to make expenses. I would like to help. The only thing I can do that will not interfere with any other duties is to answer and care for telephone calls for some one who could use the place as a branch office. Is there a demand for this sort of work? How can I get in touch with such people. I was once a telephone operator.

MRS. K. G.
If you have a desirable address and if your place is conveniently located you could let desk room or mailing privileges, together with telephone service, to individuals, mail order concerns, etc. Many office buildings in Manhattan and Brooklyn do this successfully, and I see no reason why you should not at least give it a trial. A newspaper advertisement is about the best medium for making your services known.

I live in a large apartment house where there are many young children. I would like to earn a few dollars caring for children while their parents are away, but I am timid about asking for the work. Would you advise me to have cards printed?

JENNIE.
You might write little notes to the various tenants who have children. Tell them that you will care for the kiddies either in your own apartments or theirs, as they prefer. Make your charges reasonable. A far better plan would be to forget your timidity and see the parents in person.

I am a business girl doing part-time work. I have two free days each week and would like to make use of them in some profitable way. I have been told that I have personality and good looks, and I am sure I have initiative.

JESSICA.
Had you thought of securing new accounts for savings banks? One's income, of course, will depend upon the number of good accounts you bring in. A girl with initiative, a convincing manner and a definite knowledge of financial conditions should be able to make this a paying proposition.

What Your FACE TELLS

©c. 1927- by Betty Morrison PSYD.

YOU MAY ME A "T. R." IF YOU HAVE A HIGH, WIDE, SQUARE FOREHEAD.

We cannot live in this world without of necessity being thrown more or less in the society of others. To reap the proper advantages from those with whom we come in contact we must understand them. To live harmoniously even in our own home, we must understand the members of our family. To be successful in business, we must be able to make a correct estimate of "our man". We have many types and grades of men, running from the elementary or lowest type of intelligence up to the philosopher of highest grades, but nature has stamped her marks in various places on the human face and form, making it possible to distinguish one from the other.

It is a decided advantage to understand the tell-tale actions which points to those we meet. It often keeps us from making errors in our dealing with humanity. If one knows the secret characteristics of a person he can handle him to greater advantage.

Keen Minds
A high vertical forehead indicates a naturally keen, powerful intellect, with a tendency toward an idealistic mind. A high wide square forehead indicates broad-mindedness and trustworthiness. This width of forehead from side to side, as illustration shows, indicates constructive, creative, indicative ability. The distance from the eyebrows to the hair line denotes practicality and an unusual power to grasp facts problems and to make deductions from them.

The idealism of Lincoln, of

your life. If your nerves are wrecked and your home ruined, you'll have only yourself to blame for it.

This is straight from the shoulder. And, if you will sit down and have a heart to heart talk with yourself, I believe you will agree with me. You are not even playing fair with your husband and baby, to say nothing of yourself. You waste your energies in hate and bitterness when you should be busy loving your husband and baby and making a home for them. Let the brother-in-law ride in his fifty car; let him head the local social register. What do you care? Haven't you a comfortable home, a loving husband and an adorable baby? What more could you wish?

Jack T. feels that he has made a bad bargain. He finds himself married to a "fair-weather" wife. "What shall I do?" he asks. Now I might suggest rays and means of bringing the little wife to her senses—I might dwell at length upon the duties and responsibilities of a wife—but why theorize when one is facing facts? Here is Jack's side of the story:

Says the MAN:
Dear Patricia Lee:
I have been married two years and was very happy until six months ago when we moved back to my home town. My husband is kind and considerate; we have a comfortable home and a pretty baby girl. But living near us is my husband's brother who did us a great injustice when we were first married and whom I hated intensely since then. As long as we lived in another town I could forget, but now that we live near him and see him every day I am so unhappy and upset that I really don't want to live. This man is a leader in the church and social life of the village, so you can see just what a hypocrite he is. I can hardly control myself when I see him riding around in a handsome car while my husband works like a slave and all because he took advantage of my husband's confidence.

ADA M.
You want the plain unvarnished truth, don't you, Ada? Well, I think you are very, very foolish girl to let your hate for your brother-in-law influence

has been against me. Because I have not been able to give my wife the luxuries she craves she has left me several times. Now she asks for a separation, saying that she cannot respect a man who is a failure. If she leaves me now I feel that everything will be over for me. While I have her to work for I am not too discouraged to try, try again and with my determination and ambition, am sure to win out in the end. I am sure she loves me in her own way. She is an only child and has always been pampered. What shall I do?

JACK T.
Ask her to stay—but don't beg her. Tell her just what you've told me. The fact that circumstances have been against you is no reason for her to leave you. If you are really not afraid of work I believe you will succeed, if you keep at it. With her to encourage you, of course, it will be easier. Sometimes, Jack, a so-called "fair-weather" wife will spur a man on to success. He realizes that he must get a move on himself and see that she gets the luxuries and comforts she craves. It is a pity that your wife takes the attitude she does, but then you know women do often look with contempt upon men who are confessed failures.

the land the Spaniards felt at home. California was theirs by right of discovery and possession. They had braved cruel hardships to gain her shores and were proud of their victorious conquest. The vast expanse of the Pacific had formerly been known to them as their own "Spanish Lake" and it would bring friends, commerce and prosperity to their very gates.

When the last echo of Enrique de Solano y Vasquez's words had died away in the vast stillness he slowly lowered his great sword and proudly read the Spanish inscription wrought in gold upon the ornate hilt:

"Vasquez
Ad majorem Dei gloriam
Vasquez, Vasquez, vindicta!
In the language of his new country it translated to:
For the greater glory of God
A Vasquez avenges a Vasquez."

Quickly dismounting, Vasquez plunged his sword's long blade into the earth with a flourish that would have killed the most powerful foes. Immediately the officers, soldiers and settlers dropped to their knees. The Padres raised reverent hands in benediction, hats were swept off and every head was bowed in prayer.

The setting sun added its warm blessing and then disappeared on its trip around the world. But it could not take away the glory or the importance of the day. The history of California had become a vital part of the history of civilization. Enrique de Solano y Vasquez had established the Presidio of San Francisco.

In those care-free days from 1776 to 1848 no one did any more work than was pleasing. The women were exceptionally lovely and there was never any cause for slander that could smirch their good names. The men were bold, proud, temperamental and gracefully idle.

Life was just one glorious procession of love making, gaiety, visiting and cordial hospitality and the house of Vasquez was the most favored social center of all the aristocrats.

The picturesque hacienda, a huge, rambling, vine covered structure, was on a hill that topped the vast estate. All the dreamy, indolent charm of Spain had been born again in its colorful architecture and romantic surroundings.

The adventurous soul of the first Vasquez had long since passed on and a dignified headstone, in the private burial plot adjoining the

"I, Enrique de Solano y Vasquez, on behalf of my sovereign lord, Philip, King of Spain, do hereby claim these lands and waters as his, to the glory of God and the crown of Castile."

This leader from Old Spain, resplendent in gold lace and handsome satins, sat astride his horse, holding his mighty sword aloft by the blade with point downward so that it gave the effect of a cross.

It was a reverential and epoch making moment, that 27th day of June, 1776, when San Francisco was thus founded by the romantic Spaniards.

The officers were men of the highest rank, courageous adventurers who could surmount appalling obstacles without fear of disaster or suffering. Their cavalcade came through the virgin wilderness of California with a small band of Franciscan Padres, muleteers, Mission Indians, a few belongings, a handful of settlers, many provisions and ninety head of cattle. They were intent upon reaching the shores of Monterey Bay and erecting a Mission there, but good fortune led them to another harbor of far greater magnificence and splendor and on its shores they began to build Old San Francisco.

A glorious hill site rising from the glistening ocean below! Although leagues away from their native

family Chapel, marked his grave. There were also six crosses in the little cemetery which indicated that there had been many sad hours to mar the pleasant merry-making.

But finally all the pride and glory of the fiery conqueror had been handed down to two sturdy grandsons, who with their mother comprised the entire Vasquez line. Their valuable lands were secondary only to the honor of their cherished name.

The leisurely life and prosperity of the Vasquez family was suddenly uprooted on an apparently peaceful day in January, 1848.

They had no indication that a terrible tragedy was hovering over them. A sumptuous luncheon of ranged on an apparently silver service and placed before the three members of the household by as many faithful servants.

"The finest Madera from Spain cannot surpass this wine from our own presses," modestly boasted the elder Vasquez, draining his glass.

"You are right, my son," his Mother agreed, "and even now the peons are industriously gathering more grapes for this year's supply."

They looked through the great arched doorway off in the distance to where their extensive vineyards were being stripped of the season's luscious fruit.

"With your permission I will go out and see how the work is progressing."

er, I will go out and see how the work is progressing."

The beautiful Spanish head nodded in assent. "Remember to return in time to welcome our guests!"

The elder Vasquez bowed low before his Mother and sauntered out through the archway.

The hacienda doors were already opened wide to receive a host of friends invited in for an afternoon and evening fiesta. Exquisite Spanish shawls and elaborate throws had been strewn across chairs to protect the ladies' silken gowns.

For a whole week the servants had been preparing rare and delicious delicacies. The spacious bubbling fountain in the courtyard was filled with sparkling water—waiting to reflect the gaiety and chance flirtations that would be mirrored in its depths when romantic night settled down. Even the plumed cockatoo, swinging in its ring, was puffing out its feathers in best holiday fashion.

But unfortunately none of these preparations or possible pleasures were destined to be enjoyed.

Disloyalty, Disaster, Tragedy and Death were to be the Vasquez's only visitors and Fate was sending them on long before the appointed hour.

CHAPTER II
The Gold Rush
A horseman galloped madly along the winding roadway and into the patio at breakneck speed, his voice rang out in loud excited shouts above the clatter of his pony's feet.

The elder Vasquez stopped on the vineyard path and ceased stroking his great hound's friendly head. Mother and younger son, Don Hernandez, left the luncheon table in alarm and rushed into the patio.

The peons threw down their old fashioned scythes and came running from the wheat fields, the vineyards and gardens.

Pulling the pony to an abrupt halt that lifted him high on his hind legs, the horseman waved a flask in mid air and yelled:

"Gold! Gold! There's been a gold strike at Sutter's Mill on the American River." The flask that he waved in exultation was filled with a wealth of dust for all to see. "The river is running with gold—the hills are ribbed with it!"

No sooner was the arresting announcement made than he put spurs to his horse and dashed away and off to spread the news still farther.

Gold on Broadway!

RUTH ETTING

Ruth Etting, Artist and Actress, Finds Stage a Gold Mine

New York City—The stage is the only one of the arts that pays—says the landlady and the millionaire as well as the artist's yearning for fame and a creative outlet.

Ruth Etting, singer, dancer, song writer, star in the new Zigzag Follies, speaks with the confidence that comes with the knowledge of a four-figure a week contract at hand.

"A painter may paint masterpieces, a musician may be a second Mozart, but the chances are great that the masterpieces may not be discovered until after the painter is buried, and the musician may never have enough money to hire a hall," declares Miss Etting.

"This is especially true when the artist happens to be a woman. A career on the stage, if the woman is truly talented, brings its reward, both monetary and artistic, while the woman is still young enough to enjoy that reward. The world of the theatre is a rapid moving world, and more or less faithful once it has placed the laurel wreath on a favorite. To a woman who makes good on the stage there are many profitable years.

"Perhaps that is the reason for the large salaries. In my own case, every song must be separately studied as each picture must be clear to the audience for both eyes and ears. I am singing a waltz ballad now 'Honolulu Moon,' in which the composer has captured the music of the sea, not the angry, ominous, dashing of turbulent waves but the haunting melody of South Sea waters.

"I try to express a music that is the lullaby, the love song of an island people, the moaning, plaintiveness of the sea that surrounds them.

"This is by no means easy and I worked for weeks before I got the desired effects.

"Stage life is glorious, thrilling, lucrative, but every thrill claims its quota of the hardest kind of mental and often physical endeavor. But I haven't one regret at my choice of professions."

CLARA BOW IN HAWAIIAN PLAY AT CALIFORNIA

Clara Bow, the bouncing, dashing "madcap of the screen" has gone and done it again!

Not so long ago the little Paramount star stormed the country with Elinor Glyn's "It." This was followed by "Rough House Rosie" and now she's back again with one that's even better.

"Hula" opened at the California Theatre last night.

The story itself is perfect for the lovable red-head, so much so that one can believe Armine Von Tempski had Clara in mind when she wrote the popular novel. The direction is close to perfection, this not being difficult to believe when it is remembered that Victor Fleming, the man responsible, also turned out great jobs like "Mantrap," "The Rough Riders" and "The Way of All Flesh."

The production has everything in the way of color, romance and laughs. When Clara Bow starts, the audience also starts; furthermore, there are absolutely no stops.

Laid in the Hawaiian Islands, against a background of beauty and a strange mixture of high, but "fast living" society life in which an American girl is growing up, the tale is one of a thousand enjoyable kinks. Clara Bow appears as "Hula," a child who loves the out-of-doors rather than the set which surrounds her devoted but somewhat dissolute father. She has been brought up by uncle Edwin, whose ideas on life differ from those of "Old Bill," Calhoun, Clara's parent "Hula" clings to Uncle Edwin until Anthony Haldane, an English engineer, admirably played by Clive Brook enters the scene. How "Hula" runs a gauntlet of trouble and complications in obtaining her true love makes the basis for a splendid screen story.

As usual, Miss Bow takes most of the glory in the acting lines, but the supporting cast is tip-top. Albert Gran is perfectly cast as the father; Arnold Kent, handsome Harry Dehan; Arlette Marchal, Mrs. Bane and Agostino Borgato, Uncle Edwin; carry out what is demanded of them very nicely. Doris Anderson wrote the adaptation and Ethel Doherty the continuity.

Other features include Ben Turpin in "A Harem Knight," a Mack Sennett comedy; "Ko Ko in the Circus" International News, and Larry Canelo, at the organ. Coming for four days starting next Monday "The Big Parade," with John Gilbert and Renee Adoree in the featured roles.

"THREE HOURS" HOLDS BOARDS AT RICHMOND

Corinne Griffith as a beggar on the streets of San Francisco is the unusual position in which the beautiful First National star finds herself in "Three Hours," the current cinema success at the Richmond Theatre.

Miss Griffith portrays the role of the young wife of an elderly and insanely jealous millionaire who, though she is innocent, endures her on circumstantial evidence and puts her out of his house, keeping her child.

Miss Griffith makes a pathetic and appealing figure as outcast wife begging for enough money to buy clothes to wear before her child.

Hobart Bosworth as the husband and John Bowers as the friend in need give exceptionally fine performances.

Other features on the same program include "Duck Soup," a comedy scream; and the latest Fox News reel.

Use Sulphur to Heal Your Skin

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment. Apply a little Menthosulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Menthosulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Menthosulphur from any good drug-

Kiwanis Observe Week Of Fire Prevention

A special program in keeping with Fire Prevention Week was held by the Richmond Kiwanis club at the luncheon in the Hotel Carquinez yesterday. Fire Chief W. P. Cooper stressed the importance of constant care to prevent fire loss and E. H. Bull, representative of the E. H. Bullard company of San Francisco manufacturers of insulators, told of the benefits of this instrument in rendering first aid.

The Oakland fire department orchestra furnished the music for the program. Miss Payilis Hudson gave a reading and Miss Andel Mansfield accompanied by Miss Evelyn Scott sang several numbers. Assistant Chief J. J. Barry was chairman of the day.

Members of the Kiwanis club and their wives will attend the banquet to be given in honor of District Governor and Mrs. Wendell Thomas at the Hotel Cliff in San Francisco on October 28. Thomas will retire January 1 and the banquet is being held to show the appreciation of his work while in office.

Dr. George Phillips, pastor of the Tenth Avenue Baptist church of Oakland, will be the speaker at next Wednesday's meeting. Ralph Kelly will be chairman of the day.

RIVERSIDE—Surreykrup Lumber Co. will open large retail yards here.

THRILL YOU FASTER IN RING

One hundred and thirty thousand fans went to Soldiers Field, Chicago, to see Dempsey and Tunney fight. They paid as high as \$40 a seat.

Forty thousand fans attended the first game of the World's Series at Pittsburgh. Top prices were \$6.00.

Why the difference in attendance? Not only the difference in capacity of the two fields explains it. The real explanation can be found in what occurred at Chicago and what happened at Pittsburgh.

At Chicago, Dempsey had the crowd on its feet between the nineteenth and twenty-first minutes of the fight. It was in the seventh round that he floored Tunney, and the seventh round lies somewhere between the nineteenth minute and twenty-first minute.

In a bit more than a quarter of an hour 130,000 fans at Chicago had received their dough's worth in thrills and drama.

In the first game at Pittsburgh 40,000 fans sat through two hours and some minutes of sloppy baseball. They had paid \$12.47, but they failed to receive one hundred cents on the dollar.

However, for compounded action, and for fast delivery of drama, the prize ring tops them all. That is why a heavyweight fight draws 130,000.

"IS ZAT SO?" ASKS TONY

"Poosh 'Em On" Tony Lazzeri, rated as a great infielder and coking hitter, has always been credited with a temperament as mild as that which prevails in Genoa, Italy, the birthplace of his father.

In the opening game of the series at Pittsburgh, "Poosh 'Em On" Tony revealed that the boiling point of his Latin blood can be reached.

Tony was all for hitting the large George Grantham right on the nose in the second inning of the first game, and had it not been for a hasty action on the part of Gehrig, it is probable that Tony would have pooshed one up on Grantham's broad phiz.

Grantham, who got into the same sort of a jam with a Cincinnati player not many days ago, gave Lazzeri the shoulder as Tony tried to tag him in the second inning.

Tony didn't like it a bit.

You could guess that much from the rush he made at Grantham. Lazzeri's willingness to defend himself is his final recommendation. Veteran critics thought that he lacked fire. He has proved that it doesn't take much to set flame to his emotions.

Richmond Team Plays Berkeley

Coach Ernie Barbieri's Richmond Union Class B team will play the Berkeley high lightweights this afternoon in Berkeley. The team has been given a heavy workout in preparation for this game. New plays have been worked out which will give the B's a better opportunity to bring home a victory.

The local eleven is particularly anxious to beat Berkeley as that

team defeated Richmond last year by a score of 7 to 0.

A schedule of nine games has been announced by Charles Malian, captain of the Bs.

The line-up for the game today will probably be: Dalton and Shoemaker, ends; Carson and Logan, tackles; Ogden and Basford, guards; Heeger, center; Hurley and Taylor, halves; Weeks, quarter, and Lane, full.

U. S. C. Favored To Beat Cards In Palo Alto Game Saturday

By WILLIAM LIESER
(Universal Service Staff Correspondent)

SAN FRANCISCO, Oct. 12.—While Coaches Warner of Stanford and Jones of U. S. C. are preparing for Saturday's football classic with prospects officially designated as "black" for one eleven and "blue" for the other, business offices at Palo Alto are preparing to handle a crowd possibly greater in size than has ever before been seated in a football stadium on the coast.

Trojans continue to stand as general favorites to win the contest which for two seasons now has been as great a game of football as the coast has ever had to offer. And the football public continues to note that in this uncertain season, the favorites, to date, have suffered terrific reversals.

The "upsets" which Stanford has scored over the Trojans in the last two seasons were due as much to that old fashioned and somewhat overplayed quality known as "fight." It was in the final quarter at Los Angeles last season, when Stanford didn't score a point, but when the Cards rose to super-human heights and literally beat the Trojan offense into the turf that the Cards won the football game.

Two weeks ago Stanford lost a game of football to St. Mary's and St. Mary's won it, with a great defense made possible by strong players keyed up as a football team is seldom keyed up, in other words, a team old "fight" and playing as super-humans. Cards do not propose to lose on "fight" again. Certain it is that in both 1925 and 1926 it took the Trojans to stir up the Stanford Reds, and if the Reds rise on their haunches as they did last season they may win again. Trojans are favored, but not by any insurmountable margin. Trojans are favored because they have not been beaten, and because St. Mary's has shown that a powerful defense can beat the Cards.

R. U. H. S. PLAYS BERKELEY HIGH TEAM FRIDAY

A considerably weakened R. U. H. S. team will meet the Berkeley high eleven tomorrow afternoon at Berkeley. But with their weakened forces the local team looks forward to giving the College City eleven a hard fight.

Jackson has an ankle that has been bothering him considerably. Fischer has a bad elbow and Bumgarner is still suffering from injuries in the last game at Alameda.

The Berkeley team is one of the best in the Eastbay, being Oakland Tech when they met them three weeks ago. They beat Pittsburg 44 to 0. Richmond beat Pittsburg 26 to 0 earlier in the season.

With plenty of outside chances, Richmond ought to come through with another victory. They have suffered but one defeat this year and that at the hands of the crack McClymond eleven of Oakland, a team that looms as the possible O. A. L. champions this year.

Athletic club At Elcerrito Planned For Richmond men

An athletic club for men in Richmond, on a limited scale, along the lines of the Olympic club of San Francisco and Athletic club of Oakland is being organized at the El Cerrito Athletic club, 1515 El Cerrito Avenue, El Cerrito, Cal. The club is being organized by a group of men of Richmond.

According to Paul G. G. a member of Richmond, the club is being organized on a limited scale, along the lines of the Olympic club of San Francisco and Athletic club of Oakland. The club is being organized by a group of men of Richmond.

The club plans to hold a smoker once a month for the entertainment of the members and will form a basketball team for the coming season. The semi-monthly boxing cards will continue under Ross's promotion.

GET RID OF YOUR FAT
Thousands of others have gotten rid of theirs by my simple and efficient method of fat reduction without starvation diet or burdensome exercise, often at a very rapid rate and WITHOUT PAYMENT until reduction has taken place.

I am a licensed practicing physician and have made a careful study of the physiological requirements of the human body. This has enabled me to select such ingredients and in such proportion as in my opinion will produce not only a loss of weight without harm and an improvement in health, but with it an alleviation of all of the troublesome symptoms which frequently accompany and often are a direct result of overweightness, such as shortness of breath on slight exertion, palpitation of the heart, etc., not to speak of the relief from the embarrassment of being too stout. Stout persons suffering from such diseases as Chronic Rheumatism, Gout, Eczema, Asthma and high blood pressure are greatly relieved by a reduction of their superfluous fat.

My treatment will relieve that depressed, tired, sleepy feeling, giving you the renewed energy and vigor which come as a result of the loss of superfluous fat. If you are over stout do not postpone but sit down right now and send for my FREE TRIAL TREATMENT and my plan whereby I am to be PAID ONLY AFTER REDUCTION HAS TAKEN PLACE if you so desire.

ALLMENTS OF THE HEART QUICKLY RELIEVED
Treat. Calif. April 19, 1927. Fong Wang Herb Co., Oakland, Calif.

Gentlemen, I suffered from leakage of the heart. Enlargement, Pain and High Blood Pressure. The pain extended to my back and left arm. I tried many local physicians, but found no relief at all. After I had seen your advertisement about overcoming Heart Trouble I decided to write to you for Herbs. Your Herb treatment is indeed wonderful. When I had finished taking a four-week supply of the herbs, all my pain had left me. You deserve unstinted praise for what you have done for me. I shall continue to take the herbs until I am again recovered and am sound and healthy in every respect.

Yours very truly,

Hours Bring No Word From Atlantic Plane Long Overdue On Hop

(Continued from Page 1)

The American Banker had a good view of the "American Girl" according to the report. The plane was flying about 1,000 feet above the liner. The sky was clear and the weather perfect for flying.

GOING 100 PER

Five hours from her take-off time, she was some 500 miles from shore, thus apparently maintaining her scheduled 100-mile an hour speed. But she had before her 3,500 miles of flying, most of it over the ocean.

If she reaches Paris, the "American Girl" and her girl pilot will have triumphed over the worst weather conditions ever faced by an America-to-Europe flyer and have traversed the longest and toughest course.

Haldeman decided upon a southerly route, far south of the great circle followed by Lindbergh and subsequent conquerors of the air. Because of expected better weather, the great circle route is now impossible for airplane, but the southerly course is much longer.

Throughout the day the vessels in the path of the plane failed to catch a glimpse of Miss Elder's craft. One by one the Reliance, the Celtic, the Mauretania, and

others witnessed their reports. Experienced aviators, however, pointed out that the plane, although passing over the ships' path, might not have been sighted unless Haldeman deliberately came near enough. Haldeman, on whom the bulk of the responsibility rests, is piloting by dead reckoning. He has with him a drift indicator and three compasses, including the earth inductor.

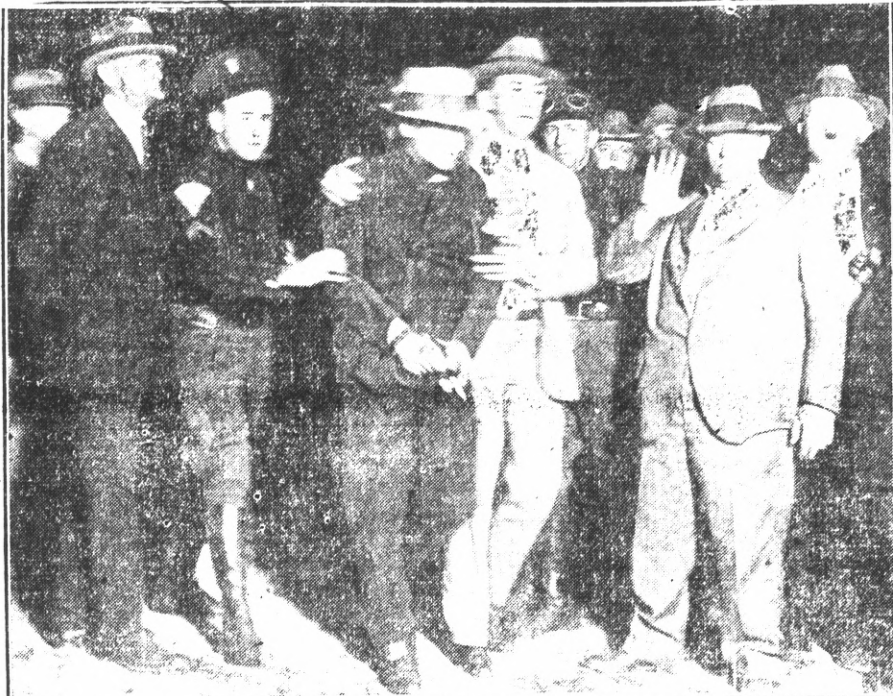

SHIPS ON COURSE

The fact that the course is dotted with ships makes the "American Girl's" chance of safety in case of accident greater. The plane is made to fly over land and could float only a short time; but it might be expected to be picked up quickly, should it be forced into the sea.

There is no rubber lifeboat on board, but Miss Elder and Haldeman have rubber suits that can be inflated and made buoyant. The wireless sending set has a very limited range and there is no receiving set.

With her fate still in doubt, Ruth Elder was complimented today by the reporters who had known her during the long wait at the airport. They called her "the prettiest

Confessed Slayer Re-enacts Girl's Murder

GRUESOME AND BRUTAL crime which he admitted was reenacted by George Yarrow, confessed murderer of Rose Sario, 17, pretty Sunday school teacher, slayed by a state trooper and a detective. Yarrow showed how he killed the girl at Wrentham Bridge, Woodbury, N. J.

girl who ever learned to fly" and commented on how within a few weeks she had risen from the obscurity of a department assistant in Lakeland, Fla., to the most interesting young woman in today's news.

Ruth Elder was born in Anniston, Ala., 23 years ago. She was always a vivid girl and a leader among her young friends. It was no wonder, then, when she wanted to fly and took to the air at once like a veteran.

With George Haldeman, who taught her to pilot a ship, she spent flying at county fairs and carnivals for a time. But it was Lindbergh who fired her imagination with the possibility of doing a "real stunt"—flying across the ocean.

MARRIED TWICE
She had been married twice and had won a beauty contest. She had a way with her, personality you might call it, and it is not surprising that she interested a group of business men in Wheeling, W. Va., in her new project.

With the aid of these business men, she raised \$35,000, organized the Wheeling Aero Exhibit Corporation, and went to Detroit to have a plane built. Rumors that the flight was a "publicity stunt" were scouted. It is said, when the character of the Wheeling backers was found to be unimpeachable.

The "Ruth Ribbon" came into vogue on Roosevelt Field while Ruth was there. It was a red kerchief worn about the blond Elder bob and the girls from the neighborhood of the field quickly copied it.

These girls considered Ruth a young person worthy of emulation, particularly when they discovered that an army surgeon had pronounced her "the perfect American girl."

Bevilacqua Rites To Be Conducted

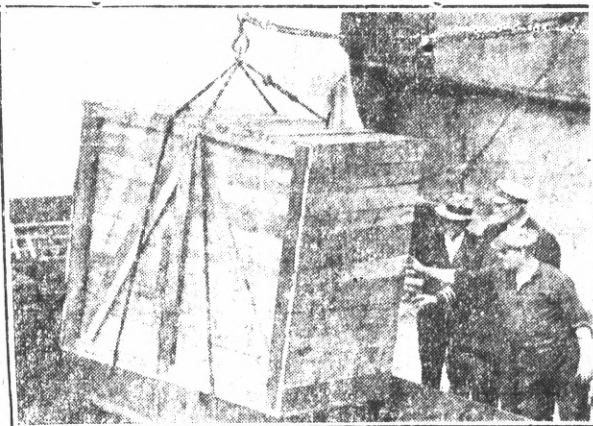

Funeral services for Pascual Bevilacqua, of Richmond, who passed away at the Welmar sanitarium at Colfax Tuesday night, will be held from the Bert Curry parlors Saturday afternoon at 2:30 o'clock. Interment will be in Sunset View cemetery.

Deceased was a native of Italy and was 43 years of age.

Rites Conducted For John Eich

With Pinole lodge of Masons officiating, funeral services were held yesterday afternoon for John Steven Eich, an employee of the Hercules Powder company, who passed away at the family home Monday night at the age of 66 years. Cremation followed in the Berkeley crematory. The funeral was from the family home under the direction of Bert Curry.

Eich who resided in Hercules, during the past 12 years was a member of the Kingston, New York, Masonic lodge, the Pittsburg, Kan., lodge of Elks, Aahmes Temple of Shrine, Oakland, and the United Workmen of Houston, Mass. He leaves his wife and three daughters.

Frank Muzzi Rites To Be Held Today

Under the direction of Bert Curry, funeral services will be held from St. Mark's church this morning at 10 o'clock for Frank Muzzi, who committed suicide some time Sunday by drowning himself in the slough near San Pablo while mentally unbalanced. Interment will be in St. Joseph's cemetery.

Deceased is survived by his widow, Mrs. Louise Muzzi, and six children. Muzzi is said to have become mentally unbalanced as a result of being cursed by a former tenant whom he ejected following a quarrel. The curse is said to have preyed on his mind resulting in his taking his life. Coroner Aubrey Wilson will conduct an inquest.

Water Bonds Chairman Here Tells Of Trip To Project

(Continued from Page 1.)

make use of the water we are bringing from the Sierras. Every year the cost of maintaining the utility district is mounting as bonds are being disposed of at the rate of \$1,000,000 a month upon which we must immediately pay interest. The idea of securing a distribution system is to create a revenue which will pay this interest and retire the bonds. The East Bay Water Company's earnings disclose that not only would

these earnings pay interest and sinking fund on \$60,000,000 but would allow more than \$1,250,000 for operating expenses annually.

Directors present at yesterday's meetings include P. M. Sanford, president; E. M. Downer, H. A. Johnson, J. F. Brooks, W. T. Helms, A. L. Paulsen, Fred S. Newsom, M. A. Hays, T. H. DeLap, Larkin J. Younce, C. S. Renwick, Otto Ludwig, Aubrey Wilson, W. W. Scott, E. B. Bull, Henry Creeger, George N. Rooker.

Last Rites Held For San Pablan

St. Paul's church in San Pablo was crowded yesterday by the many friends of Manuel Rose gathered to pay their last respects to one of the oldest residents in Contra Costa county. Services were conducted by Rev. Joseph Porta. Interment was in St. Joseph's cemetery. The carriage left the family home at 9:30 a. m. under the direction of Bert Curry and services were held in the church at 10 o'clock.

Rose, who was a native of Portugal, passed away at the Providence hospital in Oakland last Sunday night at the age of 75 years. He had been resident of San Pablo during the past 62 years. For a time he was a successful rancher and later entered business, retiring several years ago.

He was a member of the U. P. E. C. and A. O. F. of San Pablo.

Deceased was the husband of the late Mrs. Mary Rose and is survived by two sons, two daughters, a grandchild, two brothers and a sister.

Conser Rites To Be Held Today

Final rites for Harry Carter Conser, 60, Standard Oil employee, will be held this afternoon at 2 o'clock from the Wilson and Kratzer chapel. Rev. H. J. Saborne, pastor of the St. George Presbyterian church, will officiate and cremation will take place at the Berkeley crematory.

Conser, who resided at 2121 Burbeck avenue, died suddenly, presumably from a heart attack.

Richmond Legion Officers To Be Seated Tonight

The newly elected officers of Richmond Post No. 10, of the American Legion will be installed tonight in Memorial hall by Philip Cox, second area commander. Charles W. St. John will succeed T. A. Brady as head of the local post. Other officers to be installed are:

John J. Brady, first vice-commander; John Hansen, second vice-commander; Harold J. Simmons, adjutant; A. G. Papadakis, treasurer; George Reifschneider, chaplain; Will C. Dobler, historian; Earl W. Long Experience Teaches Advanced Methods in Treatment of Diseases

During my fourteen years residence in Richmond, and for many years prior to that time, I have given special attention to the non-surgical treatment of the various forms of rectal diseases, such as piles, fistula, fissure and other chronic conditions of the rectum and lower bowel, by what is now known as the ambulant treatment.

Among the advantages of this form of treatment may be mentioned the fact that it does not involve the expense and delay from loss of time caused by a lengthy sojourn in a hospital; the patient can be treated in my office and may return at once to his usual employment, the treatment is painless and the results are certain. Many persons in this city can testify to the truth of the facts herein stated.

During a practice which has extended over many years, I have evolved some methods of treatment of chronic diseases, radically different from those in use by the generality of the Medical Profession and which are well worthy of a trial.

For many years I have formed a habit of close observation of diseased conditions which have presented themselves to me, and as a result, I have arrived at certain conclusions in reference to various forms of treatment which I have found successful, and as a result of my studies I have found that many forms of chronic diseases are amenable to proper treatment when scientifically applied.

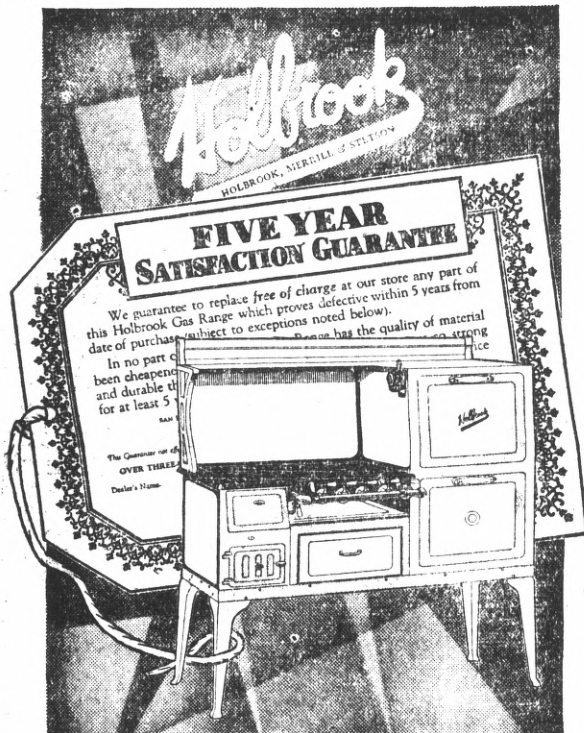

Among the various diseases which I consider to be amenable to properly applied scientific treatment may be mentioned:

Conditions which usually appear in females between the ages of forty and fifty years, chronic arthritis, brights disease, chronic bronchitis, colitis, dilation of the stomach, chronic eczema, gastric ulcer, goiter, pyelitis, some forms of paralysis, and many others.
